ENTERED JUNE 6, 1903, AT SAN FRANCISCO, CAL., AS SECOND-CLASS MATTER.

HIGHLAND BRAND EVAPORATED CREAM IS THE SIMPLEST YET MOST COMPLETE FOOD FOR INFANTS

From our Model Dairy Farms we obtain *milk of the highest quality*—sterilize it, and evaporate it down to a cream-like consistency. Our special treatment of the casein, while being heated, makes it more easy of digestion and more readily assimilated than raw milk. *Clean milk is absolutely essential in infant feeding.* Highland Brand Evaporated Cream is the cleanest of milk—pure, germ-free, of uniform composition—and always ready.

TRIAL QUANTITY TO PHYSICIANS ON REQUEST

MANUFACTURED BY

THE HELVETIA MILK CONDENSING CO., Highland, Ill.

Oakland College of Medicine and Surgery

Corner Thirty-first and Grove Streets, Oakland, California

FACULTY

FRANK L. ADAMS, A. B., M. D., Professor of Clinical Surgery.
D. D. CROWLEY, M. D., Professor of Principles and Practice of Surgery and of Clinical Surgery.
ROBERT T. STRATTON, M. D., Professor of Surgical Anatomy and Surgical Diseases of the Nervous System.
HAYWARD G. THOMAS, M. D., Professor of Ophthalmology, Otolaryngology and Laryngology.
CARL RUDOLPH KRONE, A. M., M. D., Professor of Medicine, Acting Professor of Physiology.
JOSEPH L. MILTON, M. D., Professor of Anatomy.
EDWARD NORTON EWER, M. D., Professor of Obstetrics.
W. FRANCIS B. WAKEFIELD, M. B., M. D. C. M., Professor of Gynecology.
OLIVER D. HAMLIN, M. D., Associate Professor of Medicine.
WILLIAM S. PORTER, M. D., Associate Professor of Gynecology.
JEREMIAH MAHER, A. M., M. D., Professor of Pediatrics.
WILLIAM KELLEY SANBORN, Ph. G., M. D., Professor of Materia Medica and Therapeutics.

HON. S. P. HALL, Professor of Medical Jurisprudence.
WILLIAM P. MILLIKEN, B. S., Professor of Chemistry and Toxicology.
THOMAS C. McCLEAVE, M. D., Lecturer in Pathology and Histology.
THOMAS J. CLARK, M. D., Lecturer in Dermatology.
LEMUEL P. ADAMS, A. B., M. D., Demonstrator of Anatomy.
JAMES BURRIS WOOD, B. S., M. D., Lecturer in Organic and Applied Chemistry.
THOMAS A. WILLIAMS, M. D., Lecturer in Bacteriology.
ALEXANDER S. KELLY, M. D., Lecturer in Physiology.
ALLEN F. GILLIHAN, M. D., Lecturer in Histology.
BENJAMIN F. BAKEWELL, M. D., Demonstrator of Anatomy.
M. LEWIS EMERSON, M. D., Demonstrator of Pathology.
DUDLEY SMITH, M. D., Lecturer in Materia Medica and Therapeutics.
GEORGE G. REINLE, M. D., Clinical Assistant in General Medicine.

REQUIREMENTS FOR ADMISSION.

One of the following qualifications: (a) A certificate showing that the applicant has passed the regular examinations for admission to the University of California, Stanford University or any other University or College whose standard of admission is equivalent; provided that students deficient in Latin may be allowed one year to make up such deficiency. (b) A certificate of graduation from an accredited high school or academy. (c) A certificate of graduation from a normal school established by State authority. Attendance is required upon four regular courses of lectures of eight months each. **FEES.**—Matriculation Fee (paid but once) \$5.00; Practical Anatomy Fee for each of two years. \$10.00; Tuition Fee (for each year of attendance), \$100.00; Graduating Fee (paid but once, but not returnable), \$25.00. Laboratory Fees are charged to cover the actual cost of material used.

Address all letters regarding College matters to EDWARD N. EWER, M. D., Registrar, 1111 Washington St., Oakland.

STATE SOCIETY MEETS AT RIVERSIDE, APRIL 18-20, 1905

"The Preparation which made Coca known as a remedy"

FORMULA: Each half-litre bottle represents two ounces of specially selected, blended Coca leaves with nutritious Bordeaux Wine.

The following governmental analysis sustains our statements as to the purity of Vin Mariani.

FRENCH ANALYSIS

QUANTITATIVE ANALYSIS No. 247

The Director of the Municipal Laboratoire de Chimie certifies that Vin Mariani represents exactly:

Density, at 15° C	1.014
Alcohol, percentage in volume, at 17°.....	17.07
" by weight, per litre.....	142.9
Extractive, at 100° in grams, per litre.....	87.86
Sugar, before inversion, per litre.....	41.60
" reduced after inversion, per litre.....	68.80
Sulphate of potassium, in grams, per litre...	0.91
Tartrate, in grams, per litre.....	1.85
Ash.....	2.24
Acid, calculated as sulphuric.....	3.13
Acid sulphurous.....	none
Acid salicylic.....	none
Saccharin.....	none
Coloring matter.....	nothing abnormal
Deviation of polarimeter, before inversion....	+2°44'
" after inversion.....	-2°16'
Coca bases, combined, in grams, per litre ...	0.220
(Signed), GIRARD, <i>Chemist</i>

Listerine Dermatic Soap

An antiseptic detergent for use in the antiseptic treatment of diseases of the skin.

LISTERINE "Dermatic" Soap contains the essential antiseptic constituents of eucalyptus (1%), mentha, gaultheria and thyme (ea. ½%), which enter into the composition of the well-known antiseptic preparation Listerine, while the quality of excellence of the soap-stock employed as the vehicle for this medication, will be readily apparent when used upon the most delicate skin, and upon the scalp. Listerine "Dermatic" Soap contains no animal fats, and none but the very best vegetable oils; after its manufacture, and before it is "milled" and pressed into cakes a high percentage of an emollient oil is incorporated with the soap, and the smooth, elastic condition of the skin secured by using Listerine "Dermatic" Soap is largely due to the presence of this ingredient. Unusual care is exercised in the preparation of Listerine "Dermatic" Soap, and as the antiseptic constituents of Listerine are added to the soap after it has received its surplus of unsaponified emollient oil, they retain their peculiar antiseptic virtues and fragrance.

A sample of Listerine Dermatic Soap may be had upon application to the Manufacturers

SCARLET FEVER

NOTICE TO THE COMMUNITY: THE BOARD OF HEALTH HAS ORDERED THAT ALL CASES OF SCARLET FEVER BE REPORTED IMMEDIATELY TO THE HEALTH DEPARTMENT. THIS DISEASE IS HIGHLY INFECTIOUS AND MAY BE PREVENTED BY THE USE OF STREPTOLYTIC SERUM. FOR FURTHER INFORMATION, SEE THE BROCHURE "THE STREPTOCOCCUS".

BOARD OF HEALTH.

Clinical experience has so definitely proved the value of Streptolytic Serum in scarlatina that no physician should neglect this means of treatment.

Though the streptococcus is not usually looked upon as the cause of this disease it is almost always present as a serious complicating factor.

Streptolytic serum is an antibacterial serum effective against streptococcic infection of all kinds, hence its use in scarlatina is rational. Being prophylactic as well as curative it should be employed in all cases. It reduces the high temperature and promptly abates the severity of the attack.

No other serum has given such uniformly good results. For example in the Isolation Hospital of Ottawa, Canada, it reduced the death rate to 2.6 per cent., although in the same epidemic of scarlatina the death rate outside the hospital, where the serum was not used, was 15 per cent.

Streptolytic serum is always put up in the Simplex, the only **FAULTLESS** serum syringe.

Illustrated brochure, "The Streptococcus" sent to any physician on request.

TYREE'S ANTISEPTIC POWDER

WAR DEPARTMENT
SURGEON GENERAL'S OFFICE

WASHINGTON, D. C., Jan. 3, 1890.

This is to certify that the exact Antiseptic strength of Tyree's Pulv. Antiseptic Comp. is one part of the Powder to 50 of water (1:50). Test-tubes containing peptonized beef broth were charged with the powder (Tyree's Antiseptic Powder.) The solution was then inoculated with the Anthrax Bacillus and with the Straphylococci of Pus and the tubes placed in the incubator for 48 hours at a temperature of 39 deg. C. On removing the tubes from the incubator it was found that in the solutions of one in ten to one in fifty there was no development of Bacteria.

W. M. GRAY, M. D., Microscopist,
Army Medical Museum.

Formula on Every Box.
Always Insist Upon Getting Original Packages.
Only the Genuine Tyree's Powder Reliable. Literature and Trial Sample Free.

THE smallest actual fact is better than the most magnificent statements of impossibilities. Tyree's Antiseptic Powder promises no more than it really does. It has been found extremely useful when applied to all mucous surfaces, external or internal—Vaginal, Urethral, Rectal, Nasal, Oral, Pharyngeal, Intestinal, etc. Dilutions up to 1 part in 50 are still germicidal; that gives great value and makes it economic. Its range of utility in the large field of antiseptics is wider than that of any other preparation.

J. S. TYREE - - Chemist - - WASHINGTON, D. C.

FORMULA—Parts, sod. bor., 50; ac. carbol., 5; glycerin 5; the cryst. principles of thyme, 5; eucalyptus, 5; gaultheria 5, and mentha 5.

Nov. 1, 1903

Dear Doctor:-

Are you aware of the fact that we have allied our interests with yours so that what is best for you will be best for us?

We do no more testing of eyes, confining our efforts to the manufacture of glasses and their careful adjustment to your patient's face. Why not send your work to a firm who is not your competitor, and thus hold your patients; so that when, for them, the inevitable day of a change of glasses arrives, they will be returned to you and not refracted by your optician? Sincerely yours,
STANDARD OPTICAL CO.

Dr. Deimel Underwear

(LINEN-MESH)

No matter how much one might feel inclined to pay, there is nothing better to be had. Those who wear the Dr. Deimel Underwear are best qualified to arrive at a true estimate of its real value, which may be made in the following way:

1—Not to catch cold is worth.....	\$ _____
2—To be protected against pneumonia and rheumatism is worth.....	\$ _____
3—To be free from skin diseases is worth.....	\$ _____
4—To enjoy a feeling of cleanliness and comfort is worth.....	\$ _____
5—To be sure that you wear the best underwear made is worth.....	\$ _____
Total.....	\$ _____

Fill in your own figures and you will find that you cannot afford to be without the Dr. Deimel Underwear. A few suits will give you a chance to verify your estimate.

All Dr. Deimel garments bear the Dr. Deimel name. For sale at best Dealers everywhere. For booklet, samples and full information, address

1000 Units\$2.00
2000 " 3.50
3000 " 5.00
4000 " 6.50

As to the Comparative Antitoxic Value of Serums Produced by Government Inspected Plants there can be no valid claim for greater virtue in the high-priced serums. Government inspection is rigid, and the measure of Toxin-neutralizing units must not be less than is stated on the label of each package; therefore, a 1000, or a 2000, or a 3000, or a 4000 unit package of our XX or X serum ABSOLUTELY EQUALS IN ANTITOXIC AND LIFE-SAVING VALUE a package containing a corresponding number of units of the highest-priced serum on the market.

Our Piston-Syringe Container is the safest and easiest to use of any. It is made ready for use more quickly than an ordinary hypodermic syringe, and in its use there is no danger to operator or patient as there is when glass-breaking devices are used. Serum is stored in it under rigidly aseptic conditions and comes in contact with glass and pure rubber only.

A. M. A. Principles of Ethics:

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

Dear Doctor:

We are pleased to announce that we have procured the exclusive privilege of manufacturing and selling the definite organic chemicals:

GUAIALIN, the benzoic acid ester of methylene diguaiacol, a pea-green colored, amorphous powder, which contains the virtues of over 60 per cent of guaiacol, 30 per cent. of benzoin, and about 7 per cent. of formic aldehyde. This chemical is soluble in alcohol, but not in water. Its chemistry is as follows:

This compound is most valuable in bronchitis, incipient consumption, and as a gastro-intestinal antiseptic. It is an elegant antitubercular, antipyretic, and alterative tonic.

IODOMUTH, or the bismuth oxyiodid methylene digallate which has the form of a reddish-brown, impalpable powder, and contains about 29 per cent. of metallic bismuth, 24 per cent. of iodine, 31 per cent. of gallic acid, and 5 per cent of formaldehyde. It has the structural formula

THERMOL, an acetyl-salicyl-phenetidin is chemically $\text{C}_6\text{H}_4(\text{OH})\text{COOH} + \text{CH}_3\text{COOH} + \text{C}_6\text{H}_5(\text{NH}_2) = \text{C}_6\text{H}_4(\text{NH})(\text{C}_6\text{H}_5)\text{O}(\text{COCH}_3) \cdot \text{CO}(\text{OC}_2\text{H}_5) + 3\text{H}_2\text{O}$. By the union of the virtues of acetic and salicylic acids with phenetidin, they are each modified by the other, and their activity is notably increased with an augmentation of their therapeutic value, and without the deleterious effects of heart depression so common where there is not such complete acetylation. This definite chemical compound is unequalled as a safe and efficient reliever of pain and fever as well as inhibiting the growth of pathogenic germs.

UR-A-SOL, which is the synonym for acetyl-methylene-disalicylic acid, the structural formula for which is $\text{CH}_2(\text{C}_6\text{H}_3\left\langle \begin{smallmatrix} \text{OC}_2\text{H}_5\text{O} \\ \text{COOH} \end{smallmatrix} \right\rangle)_2$. This condensation product of acetic and salicylic acids and formaldehyde occurs in microscopically small crystals which are not soluble in water, but freely soluble in alcohol. In doses of ten to twenty grains every hour or so, **this chemical is a true uric acid solvent**, and is exceedingly valuable in the treatment of rheumatism and gout. It does not distress the stomach nor depress the heart, but does produce great hunger. It is the eliminator of eliminators. It increases the peristaltic action of the bowels, the diaphoretic action of the skin, the diuretic action on the kidneys, the solvent action on the uric acid salts as well as restoring the normal fluidity of the blood, and the stimulation of the respiratory tract through the incorporated properties of acetic acid.

Sixteen other definite and interesting chemicals.

In addition to these rights and privileges, we have also secured the services of Dr. S. Lewis Summers, the physiological chemist who created these standard chemicals—the first of their class to be manufactured in this country, to supervise their production.

No effort shall be spared to maintain these medicines at their highest quality and to make their name a trade-mark for therapeutic efficiency amongst the medical profession.

Yours most respectfully,

ORGANIC CHEMICAL MANUFACTURING CO.

WILLIAM N. STEWART, President.

DOCTOR: If you will be true to yourself and your profession, this is your solemn obligation for 1905

TO prescribe the right thing, at the right time, in the right dose, and stop it at the right time; to do this better, more accurately than ever before; to see carefully to elimination; to sustain the vitality; to cleanse the alimentary canal; to do my own prescribing and eschew ready-made remedies for the names of diseases; to study each case to the very last possibility, so that no consultant can catch me unprepared; to do my duty by every patient so thoroughly that no other doctor can coax him away from me; to be kind to the sick, merciful to the poor, courteous and strictly ethical to my colleagues; to work for love of the work and of humanity; to develop my resources by increasing my knowledge of pathology and therapeutics so that I never shall give a remedy or make use of an expedient without a clear comprehension of what it will do and why I use it; and to be satisfied with nothing short of perfection in my work.

The day for slovenly prescribing is past. It is up to the doctor, to ascertain exactly what is the pathologic condition. This is his first duty. His next duty is to ascertain what remedial agent will most nearly meet the condition; and, then, his third duty is to administer the indicated remedy until exactly the required quantity has been taken to produce exactly the result desired.

Will anyone deny that these duties are incumbent upon him who would practise medicine with an exactness worthy of his calling? Will anyone claim that this can be accomplished without exact remedies? Will anyone deny that the "most exact" are the very active principles, in definite quantity, to the presence of which (in dangerous because ever-varying proportions) the efficiency or inefficiency of all others depend?

How best to accomplish this is the educative function of

THE ALKALOIDAL CLINIC

While to supply the means (in quality and service second to none) is the pleasure of

THE ABBOTT ALKALOIDAL COMPANY

Manufacturing Chemists

WHEN PRESCRIBING ANY OF THE ACTIVE PRINCIPLES ALWAYS SPECIFY "ABBOTT'S."

SAL=CODEIA (Bell)

Salacetin, grs. 5; Codeine Sulphate, gr. 1-4.

Stops Rheumatic and Neuralgic Pain better than morphia.

Eliminates Uric Acid better than salicylic acid.

Causes no depression, irritation, constipation, or drug habit.

“TRIAL IS PROOF”

Salacetin is produced by the inter-action, with heat, of Salicylic and Glacial Acetic Acids, with Phenylamine—the irritating, depressing and blood corpuscle destroying elements eliminated. It is analgesic, anti-lithic, and slightly anti-pyretic. The U. S. Dispensatory states:—“For rheumatism, salicylic acid is the most valuable remedy known.” Salacetin is better. It removes uric acid more surely and thoroughly, and without causing either stomachic or renal irritation.

“TRIAL IS PROOF”

We refine our own Codeine. It is free from morphia and coherent alkaloids, and under no circumstances will it either check secretions or induce a drug habit. Combined with Salacetin in SAL-CODEIA Bell, it relieves rheumatic and neuralgic pain better than morphia, and no objectionable results follow.

“TRIAL IS PROOF”

Try two Sal-Codeia Bell tablets, dissolved in hot water, followed by one tablet t. i. d., as necessary, in Rheumatism, any Neuralgia, Acute Bronchitis, Tonsillitis, Grippe or any other painful lithemic condition.

One dollar per hundred by mail to physicians and druggists only.

Antitoxin

**"Saves
Most
Lives"**

Every Dose
Furnished in this
Aseptic Glass Syringe ready
for Instant Use

Early Use Important

Reports from the twenty-five leading cities of the United States prove the importance of the early use of Antitoxin.

The average mortality of cases treated with Antitoxin was:

On the First day	-	1.45
Second "	-	3.9
Third "	-	5.67
Fourth "	-	7.29
Later than Fourth "	-	14.49

Dr. H. C. Wood states that as soon as Diphtheria is suspected Antitoxin should be used. If Diphtheria develops, the disease is under control. If diagnosis is not confirmed, no harm has been done by the use of a reliable Antitoxin.

The Chief Justice of one of the State Supreme Courts, says: "Any physician who delays administering Antitoxin until the later stages of Diphtheria is guilty of either criminal negligence or of criminal ignorance." Send for new literature.

SAN FRANCISCO

WASHINGTON, D. C., January 21, 1902

DR. HENRY E. WAITE, Pres. Waite & Bartlett Mfg. Co.

DEAR DOCTOR: After three months of capable, unprejudiced, exhaustive labor and research, the authorities at the Barnes Hospital, U. S. Soldiers' Home, Washington, D. C., have given us an order for the Waite & Bartlett Mfg. Co. Static Electrical Machine and X-Ray Outfit which has been on trial there in competition with the Van Houten & Ten Broeck's (Otis, Clapp & Co.) apparatus.

Crucial tests, which are absolutely impartial, were made during the period the machines were on trial, because it was the purpose of those in charge of the matter to buy the best apparatus obtainable.

Simultaneously with that trial, another investigation was in progress at the Children's Hospital in this city, where the same makes of apparatus were in full operation, and this institution also concluded that the Waite & Bartlett Mfg. Co. equipment was the best, and we likewise received their order for the complete outfit.

These orders are the outcome of painstaking investigation, and the victory of the Waite & Bartlett Mfg. Co. in both cases is one to be proud of, for their apparatus is thus stamped as the best now in the market, both for therapeutic purposes and X-Ray work.

Another fact to prove the excellence of the Waite & Bartlett Mfg. Co.'s apparatus is that there have been eleven of their Static Machines sold recently in Washington, the purchasers being as follows:

The U. S. Senate
Dr. F. E. Gibson
Dr. Robt. Reyburn
Dr. H. H. Hawthurst
The Children's Hospital

Dr. Frances B. Bishop
Dr. Gustavus Werber
Dr. Wm. H. Bishop
The Barnes Hospital, U. S. Soldiers' Home
Dr. F. A. Gardner (two outfits)

The U. S. House of Representatives
Dr. C. H. Heron
Dr. H. Krogstad
Dr. Mary Alice Brosius

Yours very truly,

Z. D. GILMAN

N. B.—This is a copy of letter received by us from our agent at Washington, which speaks for itself.

Yours truly,

WAITE & BARTLETT MANUFACTURING CO.

DR. ENNO SANDER'S GARROD SPA LITHIA WATER

*A Powerful Remedy for Diseases of the Uric Acid
Diathesis. Is the Best Lithia Water on the Market*

Contains Lithium bicarbonate, xiv grs.; Magnesium bicarbonate, x grs.; Potassium bicarbonate, xvi grs., Sodium Chloride, x grs.; Carbonated Water, xvi oz.

UNION DRUG COMPANY, Agents
400 Sutter Street **SAN FRANCISCO**

TRI-IODIDES (HENRY'S) LIQUOR SALI-IODIDES.

Colchicin. 1-20 grain. Phytolaccin, 1-10 grain. Solanin, 1-3 grain. Soda Salicylate, 10 grains. Iodic Acid, equal to 7-32 grains Iodine. Aromatic Cordial. Dose 1 to 2 drams in water. 8-oz. bottle, \$1.00.

A powerful alterative and resolvent, glandular and hepatic stimulant, and succedaneum to the iodides. Indicated in all conditions dependent upon perverted tissue metabolism; in lymphatic engorgements and functional visceral disturbances; in lingering rheumatic pains which are "worse at night." Bone, periosteal and visceral symptoms of late syphilis; for the removal of all inflammatory, plastic and gouty deposits.

A remedy in sciatica, megrim, neuralgias, lumbago and muscular pains; the gouty and rheumatic diathesis; acute and chronic rheumatism and gout; chronic eczema and psoriasis, and all

dermic disorders in which there is underlying blood taint.

An hepatic stimulant increasing the quantity and fluidity of the bile. Relieves hepatic and intestinal torpor; does not cause the unpleasant gastric symptoms of potassium iodide.

THREE CHLORIDES (HENRY'S) LIQUOR FERRISENIC.

Each drachm contains Proto-Chlor. Iron, 1-8 gr.; Bi-Chlor. Mercury, 1-128 gr.; Chloride Arsenic, 1-280 gr.; Calisaya Cordial. Dose, 1 to 2 drachms. 12-oz. bottle, \$1.00.

An oxygen-carrying ferruginous preparation, suitable for prolonged treatment of children, adults and the aged. Indicated in anemia and bodily weakness, convalescence from acute diseases and surgical operations; boys and girls at the age of puberty, and the climacteric period in women. In children with chorea, rickets, or who are backward in development, or in whom there exists an aversion to meats and fats. Prolonged administration never causes "iron headache."

As an adjuvant for potassium iodide the undesirable manifestations known as iodism can be removed. Stimulant to the peptic and hydrochloric glandular system of the stomach, especially serviceable in the impaired appetite, nausea, vomiting and other gastric symptoms of alcoholic subjects.

MAIZO-LITHIUM (HENRY'S) LIQUOR LITHIUM MAIZENATE.

Nascent Chemic Union of Maizenic Acid—from Green Corn Silk—with Lithium, forming Maizenate-Lithium. Two grains to drachm. Dose, 1 to 2 drachms. 8-oz. bottle, \$1.00.

A genito-urinary sedative, an active diuretic; solvent and flush indicated for the relief and prevention of renal colic; a sedative in the acute stages of gonorrhea, cystitis and epididymitis; in dropsical effusions due to enfeebled heart or to renal diseases. As a solvent in the varied manifestations of gout, goutiness and neurotic lithemia, periodical migrainous headache, epigastric oppression, cardiac palpitation, irregular, weak or intermittent pulse; irritability, moodiness, insomnia and other nervous symptoms of uric-acidemia. Decidedly *better*, more economical, extensive in action and definite in results than mineral waters.

Those cases of irritable heart, irregular or intermittent pulse so frequently met with by insurance examiners and found to be due to excess of uric acid, are special indication for Maizo-Lithium.

IRON TROPON

(ALBUMEN AND IRON)

IS INTRODUCED EXCLUSIVELY TO THE MEDICAL PROFESSION

The Chemical Analysis of 1000 samples of its basis, Tropon, i. e. about $\frac{1}{2}$ meat and $\frac{3}{2}$ vegetable albumen, according to Dr. Aufrecht is as follows:

	PER CENT
Albumen	90.52
Fat	0.14
Carbohydr00
Water	8.78
Salts	0.61

Composition of Iron Tropon

91½% TROPON (peptonized)

6 % COCOA

2½% IRON

Forming a soluble, very palatable powder

To be taken in milk or water, (either hot or cold) also in sweet wine, etc.

Iron Tropon is put up in 100 grammes ($3\frac{1}{2}$ oz.) tins only, containing sufficient quantity for 7 or 8 days at a dosis of a teaspoonful 3 times a day.

Iron Tropon retails at 75c per tin at all druggists. Special terms for hospitals and sanatoria.

Cystogen Aperient
GRANULAR EFFERVESCENT SALT - CYSTOGEN

*An Anti-Uric Aperient and Urinary Antiseptic,
Eliminant and Prophylactic.*

**CYSTOGEN APERIENT WILL PREVENT INVOLVEMENT OF THE
KIDNEYS DURING THE COURSE OF INFECTIOUS DISEASES.**

An effective prophylactic in all febrile conditions, particularly scarlet fever, diphtheria, typhoid and other infectious diseases accompanied by high temperature and retarding the activity of the kidneys. Stimulates excretion of urine and flushes the entire urinary tract with a dilute solution of formaldehyd, thus rendering the urine sterile. Inhibits the growth of pyogenic bacteria and prevents decomposition of urine.

Prevents formation of uric acid accumulations and dissolves concretions in their incipency.

CYSTOGEN APERIENT is particularly valuable in Gout, Rheumatism, Calculus, Cystitis, Gonorrhoea and all Infectious Fevers.

Dose: A heaping teaspoonful in water three or four times daily.

*Samples and literature will be furnished on
request of physicians.*

CYSTOGEN CHEMICAL CO., St. Louis, U. S. A.

Formula—Cystogen, 5 grs.; Sodium phosphate, 30 grs.; effervescent mixture q. s. to the teaspoonful, (tartaric acid, citric acid, bicarbonate of soda.)

**NON-TOXIC
NON-IRRITATING
HARMLESS**

Dioxogen

$H_2 O_2 3\%$

**ANTISEPTIC
DISINFECTANT
DEODORANT**

Dioxogen is a medicinal solution of H_2O_2 with a well established reputation for purity and reliability. It has for many years been known as "the kind that keeps" and is always specified by the careful prescriber.

SHOULD ALWAYS BE CARRIED IN
THE EMERGENCY BAG

It is a powerful germicide, but is harmless to healthy tissues; destroys pus and septic materials; has a "mechanical" action which dislodges dirt from accidental wounds. Of indispensable value in modern minor surgery. Adhered dressings easily and painlessly removed by its use.

**THE OAKLAND
CHEMICAL CO.**

**464 WEST BROADWAY,

This entirely private and well-equipped institution has a charming and healthful location, and is conducted as a medical and surgical hospital for the accommodation of the patients of Regular Physicians. For seven years (founded in Nov., 1896) the policy of reserving its service for the regular profession has been strictly and ethically followed.

Personal inspection and correspondence invited.

CLARK'S SANITARIUM

For the care and treatment of Mental and Nervous Diseases and of Morphine and Alcoholic Habits, was established by Dr. Asa Clark, Medical Superintendent of the California State Hospital at Stockton.

The Sanitarium is located in the southwestern part of the City of Stockton and is surrounded by pleasant grounds, containing forty acres. The buildings are two stories in height and cover one acre. Their sanitary condition is perfect. The corridors are wide, airy and light, affording the patients who cannot be trusted out in the grounds, and all others on wet days, ample room for exercise. The appointments are modern and comfortable.

All Modern Electrical, X-Ray, Massage and Electro-Therapeutic Appliances

The food supplies and cooking are of the best; the milk, butter chickens and eggs being products of the place and abundant. Any patient may have a special attendant, if necessary, at a moderate additional cost.

Charges Moderate

Address for further information DR. F. P. CLARK, Medical Supt., or J. M. ANDERSON, Business Manager
P. O. Box 297. Phone, 351 Green Stockton, Cal.
